

Nature Bingo

Uusimaa
Day

Helsinki-Uusimaa
Regional Council

Let's step into local nature and spot natural symbols of our Region: flowers, animals and overall, signs of spring. You can colour the entire page, find and give each picture a number, and take it with you on your trip into the spring season. The wood anemone is the flower symbol of our Region, whereas the hedgehog and blackbird its animal symbols.

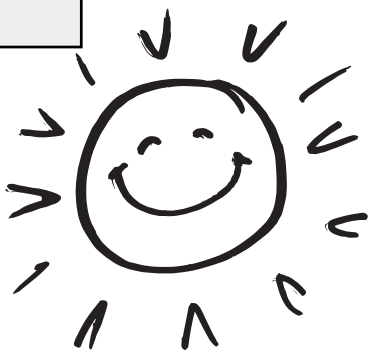

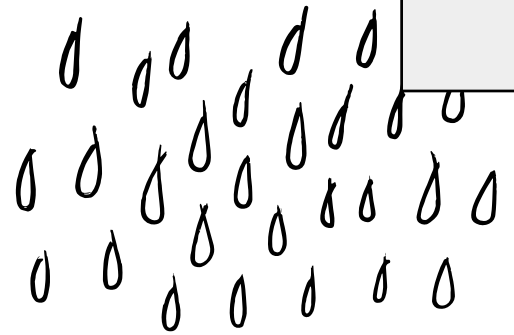

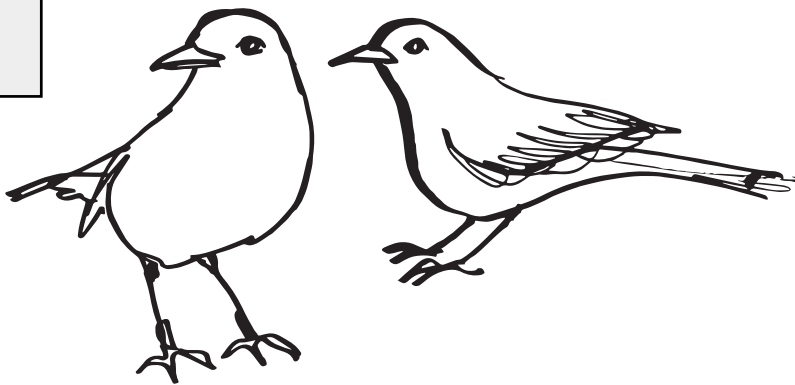

On this Day, we invite you to enjoy culture, meetings and local nature together, on the festive spring day all around our own Region – annually in May.
